PETITION TO CANCEL

Petitioner, JOEL L. BELING d/b/a Supa Characters Pty Ltd, Director of Supa Characters Pty Ltd, Barrister and Solicitor of the Supreme Court of Victoria, Doctor of Philosophy, believe that it is and/or will be damaged by U.S. Registration No. 3,372,884 (the "Registration"), registered in the name of Ennis, Inc. (hereinafter "Registrant"), a Texas corporation, having a place of business at 2441 Presidential Parkway, Midlothian, TX 76065, United States, and hereby petition to cancel said registration.

With respect to standing, petitioner believes and alleges he has a real interest and direct and personal stake in the cancellation of Registrant's Registration because he intends and desires, either by himself or through a third-party licensee, to offer for sale printing services - more specifically, those goods particularized in class 16 of Application No. 85,324,443 (COLOR WARS) – using the words "color works" and because "color works" is a generic and descriptive term of the goods offered for sale by all sellers of printing services, printed goods and stationery, and more generally, any work produced in any industry involving the use of color. Accordingly, Petitioner believes he has a reasonable basis to believe he will be damaged by Registrant's Registration because

"COLORWORX" is simply an insignificant misspelling and abbreviated composite mark of "color works" or, in expanded form, "works of color," terms which are necessary in the trade of goods and services involving works of color. Petitioner believes Registrant has no right to claim a continuing legal and trade monopoly over a word which is generic, descriptive and necessary for use generally by all sellers of goods involving works of color and in particular, by all sellers of printing services.

The grounds for cancellation are as follows:

COUNT I

REGISTRANT'S COLORWORX REGISTRATION SHOULD BE CANCELLED AS THE TERM "COLORWORX" IS MERELY GENERIC 15 U.S.C. § 1064(3)

- 1. Petitioner incorporates all previous paragraphs by reference.
- 2. Registrant is not entitled to exclusive use of the term "ColorWorx" or "Color Works" in commerce for the services specified in U.S. Registration No. 3,372,884.
- 3. The term "color works" obviously refers to works of color. As shown in Exhibits A and B, which contains reproductions of the websites for Oxford Dictionaries Online and Dictionary.com, both the words "color" and "works" are common and often-used words in the English language. Both the words "color" and "works" function as either verbs, adjectives or nouns. Moreover, in the Registrant's Registration the words "color" and "works" can function as either verbs, adjectives or nouns to produce a name and description of goods and services which are generic and descriptive. According to Oxford Dictionaries Online, the word "color," in its noun form, may be defined as:
 - 1 [mass noun] the property possessed by an object of producing different sensations on the eye as a result of the way it reflects or emits light: the lights flickered and changed colour
 - 2. [count noun] one, or any mixture, of the constituents into which light can be separated in a spectrum or rainbow, sometimes including (loosely) black and white: a rich brown colour a range of bright colours.
 - 3. the use of all colours, not only black and white, in photography or television: *he has shot the whole film in colour [as modifier]: colour television*

Similarly, according to Dictionary.com, the word "color," in its noun form, may be defined as:

- 1. the quality of an object or substance with respect to light reflected by the object, usually determined visually by measurement of hue, saturation, and brightness of the reflected light; saturation or chroma; hue.
- 2. the natural appearance of the skin, especially of the face; complexion: She has a lovely color.
- 3. a ruddy complexion: The wind and sun had given color to the sailor's face.

- 4. a blush: His remarks brought the color to her face.
- 5. vivid or distinctive quality, as of a literary work: Melville's description of a whaling voyage is full of color.
- 6. details in description, customs, speech, habits, etc., of a place or period: The novel takes place in New Orleans and contains much local color.
- 7. something that is used for coloring; pigment; paint; tint; dye.
- 8. background information, as anecdotes about players or competitors or analyses of plays, strategy, or performance, given by a sportscaster to heighten interest in a sportscast.
- 9. colors, a.any distinctive color or combination or pattern of colors, especially of a badge, ribbon, uniform, or the like, worn or displayed as a symbol of or to identify allegiance to, membership in, or sponsorship by a school, group, or organization.
- b. nature, viewpoint, or attitude; character; personality: His behavior in a crisis revealed his true colors.
- c. a flag, ensign, etc., particularly the national flag.
- d. U.S. Navy. the ceremony of hoisting the national flag at 8 a.m. and of lowering it at sunset.
- 10.skin complexion of a particular people or race, especially when other than white: a man of color.
- 11.outward appearance or aspect; guise or show: It was a lie, but it had the color of the truth.
- 12. a pretext: She did it under the color of doing a good deed.
- 13. Painting. the general use or effect of the pigments in a picture.
- 14. Phonetics. timbre.
- 15. Chiefly Law. an apparent or prima facie right or ground: to hold possession under color of title.
- 16. Music. tone color.
- 17. a trace or particle of valuable mineral, especially gold, as shown by washing auriferous gravel.
- 18. Physics. any of the labels red, green, or blue that designate the three states in which quarks are expected to exist, or any of the corresponding labels for antiquark states. Compare quantum chromodynamics, quark model.
- 19. Printing. the amount of ink used.
- 20. Heraldry. a tincture other than a fur or metal, usually including gules, azure, vert, sable, and purpure.

adjective

- 21. involving, utilizing, yielding, or possessing color: a color TV.
- 22. to give or apply color to; tinge; paint; dye: She colored her hair dark red.
- 23. to cause to appear different from the reality: In order to influence the jury, he colored his account of what had happened.
- 24. to give a special character or distinguishing quality to: His personal feelings color his writing.
- *verb* (used without object)
- 25. to take on or change color: The ocean colored at dawn.
- 26. to flush; blush: He colored when confronted with the incriminating evidence.

Similarly, according to Oxford Dictionaries Online, the word "works," in its noun form, may be defined as:

2a task or tasks to be undertaken: they made sure the work was progressing smoothly the materials for a task: she frequently took work home with her

(in combination or with modifier works) chiefly *British* activity involving construction or repair: *extra costs caused by additional building works informal* cosmetic plastic surgery: *between you and me, I think he's had some work done*

(works) Theology good or moral deeds: the Clapham sect was concerned with works rather than with faith

3a thing or things done or made; the result of an action: her work hangs in all the main American collections the bombing had been the work of a German-based cell [count noun] a literary or musical composition or other piece of art: a work of fiction (works) the artistic production of a particular author, composer, or artist, regarded collectively: the works of Schubert fill several feet of shelf space

a piece of embroidery, sewing, or knitting, typically made using a specified stitch or method.

4 (works) [treated as singular] chiefly British a place or premises in which industrial or manufacturing processes are carried out: he found a job in the locomotive works

According to *Dictionary .com*, the word "works," in its noun form, may be defined as:

- 2. something on which exertion or labor is expended; a task or undertaking: The students finished their work in class.
- 3. productive or operative activity.
- 6. materials, things, etc., on which one is working or is to work.
- 7. the result of exertion, labor, or activity; a deed or performance.
- 8. a product of exertion, labor, or activity: musical works.

Similarly, according to Oxford Dictionaries Online, the word "works," in its verb form, may be defined as:

3(of a plan or method) have the desired result or effect: *the desperate ploy had worked*

[with object] produce as a result: with a dash of blusher here and there, you can work miracles

make efforts to achieve something; campaign: an organization working for a better life for people with mental illness

(work on/upon) exert influence or persuasion on: *she worked upon the sympathy of her associates*

[with object] use one's persuasive power to stir the emotions of: the born politician's art of working a crowd

According to *Dictionary .com*, the word "works," in its verb form, may be defined as:

19. to act or operate effectively: The pump will not work. The plan works.

- 4. The words "color" and "works," in respect to Registrant's Registration, may be read, understood or interpreted a number of ways, with each word functioning as either a noun, verb or adjective to offer a commonly understood generic and descriptive version and purpose. Registrant's Registration is therefore so highly descriptive as to be unprotectable
- 5. A random search of the term "Color Works" on the google.com search engine showed 2,500,000 hits for web pages. [See Exhibit C attached herewith and incorporated by reference.] A random search of the term "Color Worx" on the google.com search engine showed 4,630 hits for web pages. [See Exhibit D attached herewith and incorporated by reference.] A random search of the word "ColorWorx" on the google.com search engine showed 24,600 hits for web pages. [See Exhibit E attached herewith and incorporated by reference.]
- 6. The general public would not understand or believe that printing services offered in connection with the term "ColorWorx" refers to Registrant.
- 7. The composite and compound word "ColorWorx" is generic for and easily recognizable as "color works" or works of color, and therefore generic with regard to printing services concerning such services and other closely related goods and services. When the two ordinary words "color" and "works" are joined into a compound, they form a phrase which has a commonly understood meaning, i.e., works of color.
- 8. Registrant cannot use the word "ColorWorx" as a trademark to indicate origin because "ColorWorx" is an insignificantly abbreviated and insignificantly misspelled composite of the words "color works," which are themselves generic. An abbreviation of a generic name which still conveys to the buyer the original generic connotation of the abbreviated name, is still "generic": *McCarthy on Trademarks*, pg 12-90; see also *In re Abcor Dev. Corp.*, 588 F.2d 811, 200 U.S.P.Q. 215 (C.C.P.A.1978). A misspelling of a generic name which does not change the generic significance to the buyer, is still generic: *American Aloe Corp. v Aloe Crème Laboratories, Inc.*, 420 F.2D 1248, 164 u.s.p.q. 266 (7th Cir. 1970). Registrant's Registration is neither distinctive, capable of distinguishing, fanciful, nor does it offer a different commercial impression to the term "color works," and therefore is not protectable.
- 9. The term "color works" is a name for goods and services offered by third party printers in general and third parties who trade in goods and services involving color in particular and therefore is necessary for these third parties to conduct trade. Other third parties, as shown in Exhibits F and H, use this name.
- 10. Petitioner and other third parties have the right to use the term "color works" in connection with naming their printing services and other closely related goods and services.

- 11. If Registrant is allowed to continue to maintain its registration for COLORWORX, Registrant would be able to continue to improperly obstruct Petitioner's and other third parties' generic use of the term "color works."
- 12. Because the term "COLORWORX" is incapable of serving as an indicator of source, Registrant's U.S. Registration No. 3,372,884 should be cancelled or restricted.

COUNT II

REGISTRANT'S COLORWORX REGISTRATION SHOULD BE CANCELLED OR RESTRICTED AS THE TERM "COLORWORX" IS MERELY DESCRIPTIVE

15 U.S.C. § 1052 (e)

- 13. Petitioner incorporates all previous paragraphs by reference.
- 14. Registrant's use of the term "ColorWorx" is not unique or distinctive, being an insignificant misspelling and abbreviated compound of the words "color works", which are consistent with other third party and common understanding of the words dating back decades. The combination of the terms "color" and "works" to form "ColorWorx" fails to evoke a new and unique commercial impression, being merely descriptive. This slight misspelling of the word "works" does not turn a descriptive or generic word into a non-descriptive mark. *See C-Thru Ruler Co. v. Needleman*, (E.D. Pa. 1976). The addition of Registrant's logo also fails to create a new and unique commercial impression, the logo being unremarkable, nondescript and non-distinctive.
- 15. The term "color works" is merely descriptive of the services recited in Registrant's COLORWORX Registration or descriptive of a significant feature of the services because the term "ColorWorx" refers to the subject matter of Registrant's services, that is color works produced by printing services. Matter that "merely describes" the goods or services on or in connection with which it is used is not registrable on the Principal Register. As noted in *In re Abcor Dev. Corp.*, 588 F.2d 811, 813, 200 USPQ 215, 217 (C.C.P.A. 1978):

The major reasons for not protecting such marks are: (1) to prevent the owner of a mark from inhibiting competition in the sale of particular goods; and (2) to maintain freedom of the public to use the language involved, thus avoiding the possibility of harassing infringement suits by the registrant against others who use the mark when advertising or describing their own products.

- 16. In addition to being merely descriptive of printing services, Registrant's Registration ought not be registered on the Principal Register absent a showing of acquired distinctiveness under 15 U.S.C. §1052(f). Registrant has not shown such acquired distinctiveness and therefore registration should be cancelled.
- 17. The term "color works" is necessary to accurately describe the subject matter of Petitioner's and other third parties' printing services and other closely and distantly related goods and services. Other third parties, as shown in Exhibits F and H, use this description.
- 18. Petitioner and other third parties have the right to use the term "color works" in connection with describing the subject matter of their printing services and other closely and distantly related goods and services.
- 19. The term "ColorWorx" has not acquired distinctiveness or secondary meaning with respect to the services recited in Registrant's U.S. Registration No. 3,372,884.
- 20. If Registrant is allowed to continue to maintain its registration for COLORWORX, Registrant would be able to continue to improperly obstruct Petitioner's and other third parties' descriptive use of the term "color works."
- 21. Because the term "COLORWORX" is merely descriptive of Registrant's services, Registrant's U.S. Registration No. 3,372,884 should be cancelled or restricted.

COUNT III

REGISTRANT'S COLORWORX REGISTRATION SHOULD BE CANCELLED OR RESTRICTED BECAUSE IT IS NOT CAPABLE OF DISTINGUISHING REGISTRANT'S SERVICES 15 U.S.C. § 1091(a)

- 22. Petitioner incorporates all previous paragraphs by reference.
- 23. "ColorWorx," being an insignificantly abbreviated and misspelled composite and compound of the term "color works," frequently encompasses activities in the field of printing services and other closely and distantly related goods and services. *See* Exhibits F and H.
- 24. Color works is and has been for decades used as a common term for the services described in U.S. Registration No. 3,372,884 and other closely and distantly related goods and services. *See* Exhibits F and H.
- 25. The Registrant's use of the composite word "ColorWorx" is displayed in non-distinctive lettering and therefore has no capacity to distinguish the Registrant's goods and services from those of other traders.

- 26. Registrant's logo/design is non-distinctive and therefore has no capacity to distinguish the Registrant's goods and services from those of other traders.
- 27. Because of the general nature of Registrant's services namely, the fact that "products are printed in 4-color process only" and the fact that Registrant "is a 'gang run' style print company," performing jobs "run on a press sheet with other jobs" which "will be run to standard color densities," it is more important to distinguish its goods and services from those of other traders in general and other printers in particular. [See Exhibit G, Printout of Registrant's Website, attached herewith and incorporated by reference.] Registrant does not offer unique, individualized and/or customized products for its customers and because of its mass production or "gang run" commercial printing style, its Registration is more likely to be confused with the names of and goods and services offered by other traders in general and other printers in particular. [See Exhibits F and H attached herewith and incorporated by reference.]
- 28. Because the term "ColorWorx" is incapable of distinguishing Registrant's services under 15 U.S.C. § 1091(a), U.S. Registration No. 3,372,884 should be cancelled or restricted.

WHEREFORE, Petitioner believes that he has been, is, and/or will be damaged by U.S. Registration No. 3,372,88 and pray that it be cancelled or restricted.

We're proud of the work we do. And if we don't do it right, we'll make it right. Period.

Standard Printing

All standard ColorWorx products are printed in 4-color process only. All PMS colors in files will be automatically converted to CMYK process equivalents. Be aware this can cause a slight color shift.

Color Matching

ColorWorx is a "gang run" style print company. Your job will be run on a press sheet with other jobs and will be run to standard color densities. The overall dominant color on a sheet may cause individual job colors to shift slightly. We make every effort to produce a reasonable representation; however, ColorWorx, like all other gang run commercial printers, does not guarantee an exact color match.

- 2. Opposer is the owner of U.S. Trademark Registration No. 3,372,884 for the mark COLORWORX® ("Opposer's Mark"). Opposer's Mark is valid, subsisting, and in full force and effect. Since as early as August, 2002, Opposer, its predecessors, or its related companies have continuously used the COLORWORX Mark in interstate commerce as a trademark for a variety of printing goods and printing services including, but not limited to, business cards, letterhead, sell sheets, rack cards, postcards, brochures and posters ("Opposer's Goods"). Opposer's Mark has also continuously appeared in substantial advertising and promotion of Opposer's printing goods and printing services, such that the mark is closely identified with Opposer's Goods and has gained very valuable public recognition. Opposer has established an outstanding reputation as to the quality of its products sold under the COLORWORX Mark.
- 3. Opposer has continuously used its Mark in interstate commerce since long prior to any date upon which Applicant can rely. By virtue of its sales of high-quality products bearing Opposer's Mark in interstate commerce, its expenditures of considerable sums for promotional activities and the excellence of its products, Opposer has developed significant goodwill in its Mark and a valuable reputation.
- 4. Opposer's trademark rights for the COLORWORX Mark has priority over Applicant's Mark, inasmuch as Opposer has continuously used its Mark since it commenced use of its Mark, and Applicant's application lists a filing date of May 18, 2011, and is listed as an intent-to-use application claiming priority pursuant to Section 44(d) of the Trademark Act, 15 U.S.C. § 1126.
- 5. Applicant's Mark so resembles Opposer's Mark that has been and is currently used, as to be likely to cause confusion, or cause mistake, or to deceive, in violation of Section

2(d) of The Trademark Act, 15 U.S.C. §1052(d), when used on or in connection with Applicant's Goods.

- 6. Under the circumstances, registration of Applicant's Mark will injure Opposer by causing the trade and/or purchasing public to be confused and/or deceived into believing that Applicant's Goods are those of Opposer or are sponsored by Opposer, to Opposer's damage and detriment, and will place a cloud over Opposer's title to its COLORWORX Mark in violation of Section 2(d) of the Trademark Act, 15 U.S.C. §1052(d).
- 7. Opposer's COLORWORX Mark was well established long before the filing date of Applicant's subject application, and at the time that Applicant filed the subject Application. Registration of Applicant's Mark would diminish and dilute the distinctive quality of Opposer's rights in its COLORWORX Mark in violation of 15 U.S.C. §1125(c). Moreover, registration of Applicant's Mark would diminish the advertising value of Opposer's Mark, and such registration would, in the event of any quality problems involving the goods offered by Applicant, tarnish the distinctiveness of Opposer's Mark.
- 8. Applicant's Mark is the same as, or substantially the same as, Opposer's Mark, including in visual appearance and in pronunciation.
- 9. Applicant's Mark is likely to and/or has diluted and lessened the capacity of Opposer's Mark to identify and distinguish Opposer's Goods.
- 10. Applicant's Mark so resembles Opposer's continuously used and well-known Mark as to be likely, when used in connection with the goods as set forth in Applicant's application, to lessen the capacity of Opposer's Mark to identify and distinguish Opposer's Goods.

11. The subject application should be refused because Opposer's rights of continuing its present use of its Mark in commerce are, or would be, threatened by Applicant's registration of Applicant's Mark for Applicant's Goods, and because Opposer's business would otherwise be damaged by Applicant's registration of Applicant's Mark for Applicant's Goods.

WHEREFORE, Opposer believes that it will be damaged by registration of Applicant's COLOR WARS mark and prays that the Trademark Trial and Appeal Board sustain this opposition and refuse to register Application Serial No. 85/324,443 with prejudice.

IMPORTANT INFORMATION

Artwork (Guidelines & Templates)

We have an all digital workflow and work with all MAC and MAC compatible files. Artwork must be created on our FREE design templates. Use accepted programs and follow Art Guidelines. Download templates at www.colorworxprint.com. When sending digital files via our FTP or email, all files MUST include your dealer information, purchase order number and job name. Incorrect files and files created without our item template may delay production and can incur prep charges.

<u>Copy Errors</u> Customer files are reviewed before output to ensure accuracy and that your expectations are met. **However, we are not liable for errors in customer submitted files.** Additionally, when a remake is warranted the order will be produced according to the original specifications, without alteration. (See Printing)

<u>Proofs</u> Proofs are available for an additional charge. Changes to proofs may incur additional charges. Normal production time is required after proof approval.

Printing All standard products are printed in four color process only. Prices are based on customer supplied, print ready files in acceptable programs on our templates. Process graphics must be in CMYK and not RGB or PMS. We are not responsible for color shifts that may occur when PMS colors in files or RGB files are converted to CMYK. Refer to the Pantone® 4-Color Process Guide and Pantone® Color Bridge for assistance with process color builds. Never rely on color monitors for accurate color representation. (See Color Matching.)

Color Matching CoLORWORX® is a "gang run" style print company. Your job will be run on a press sheet with other jobs and will be run to standard color densities. The overall dominant color on a sheet may cause individual job colors to shift slightly. Every effort is made to ensure a reasonable representation, but COLORWORX® DOES NOT GUARANTEE AN EXACT COLOR MATCH. If you require a color match or your job needs to match other pieces, let us know prior to placing your order.

<u>Changes/Cancellations</u> Changes to orders in progress may or may not require additional cost and/or time. Cancellation after order is in progress will require payment for work performed or materials generated.

<u>Production Time</u> Most orders ship in 7 working days or less from receipt of acceptable submitted art files. **COLORWORX®** cannot be held responsible for delays due to incorrectly submitted files. Additional time and charges may be required to after or fix incorrect files. Production times are exclusive of delivery time and are non-contractual. Production Days are Monday through Friday, excluding holidays.

<u>Damaged Goods/Claims</u> It is important to inspect all materials upon arrival. In the case of loss or damage in transit, the liability is that of the carrier and not **COLORWORX®**. Please mark shipper "received damaged" and contact your dealer immediately. A claim must be filed with the carrier within 10 days after receipt of merchandise. All other claims must be made within 30 days of delivery. Our liability is specifically limited to the value of the product we manufacture.

Brands

Along with our regional Ennis facilities, we are pleased to bring together a wonderful collection of industry-leading brands and subsidiaries. Talented people, innovative products and local service make Ennis the top company in the wholesale printing market. Take a look at our alphabetical listing of brands and subsidiaries below and be sure to click on their logo if you want more information.

Ennis Inc.

360° Custom Labels focuses on value-added label products that translate into big profits for distributors. From simple to standard, they specialize in stock and custom labels with capabilities such as four-color process, variable imaging and special materials.

Adams McClure is recognized in the industry for award-winning point of purchase display materials and commercial printing. They specialize in all aspects of POP projects, including concept and creation, production, prepress, multimedia, conventional and UV offset printing, bindery, finishing and fulfillment.

Founded in 1947, **Admore** is the industry leader in presentation folders. Their product line features the largest selection of standard and custom pocket folders, portfolios, binders, CD holders, video packaging, totes and more. Sales tools include free samples and sales kit, design templates, a non-branded distributor website and sales brochures.

Our **Advertising Concepts** division brings the most popular promotional products to distributors. If you have trouble getting good pricing from ASI companies, use our volume price discounts to your advantage. Advertising Concepts is also a licensed manufacturer of 3M Post-it Notes.

Alstyle Appare! is a leading apparel manufacturer offering a wide variety of tees, fleece, fashion items, headwear, shorts and pants. With sizes from 2T through 6XL, they will keep you covered with a selection of high-quality apparel products.

For over 75 years, customers have relied on **Atlas Tag & Labe**l for customer service, innovation, versatility, value and award winning quality products. Atlas offers both specialized, custom applications and standard stock solutions. Stock

products include response to customer demand, competitive pricing and quick turnaround. Custom products consist of variable imaging, multiple part tags, barcoding and custom design and construction.

B & D Litho of Arizona is your complete source for simple traditional forms to custom printed projects. This Phoenix based subsidiary is one of the largest trade only specialty printers in the Southwestern U.S.

Block Graphics is a wholesale only manufacturer of custom business forms and converts millions of envelopes daily. With locations in Oregon and California, Block Graphics has the needs of West Coast distributors covered.

history. Two new products – integrated products and envelopes – were added to the Calibrated line in 2008.

ColorWorx specializes in affordable, short run, four-color process printing. Located in our Macomb, Michigan facility, their product line includes business cards and letterhead, sell sheets, rack cards, postcards, brochures and posters.

Enfusion integrated products incorporate labels, cards, decals and more. Ennis has national coverage with five manufacturing locations experienced in the production of integrated products. Be sure to request our award winning Enfusion sales kit!

GenForms is an ISO 9001:2000 quality certified, medium to long run facility that also offers short run capabilities. Located in Anaheim, they specialize in traditional and value-added specialty forms including inline bar coding, integrated labels, 6-color UV printing, process printing, cross-web gluing, modulus numbering, label affixing, twin-web applications and many other traditional forms capabilities.

General Financial Supply is recognized in the industry as "Specialists in Quality MICR Documents." If you are selling to a community bank or credit union, GFS should be your first call. Their product line includes internal bank forms, financial envelopes and holiday products.

Northstar is a leading provider of negotiable and non-negotiable documents, high security checks, prescription pads and secure distribution services. They are experienced in serving the needs of all sizes of banks and are recognized by the North American Security Products Organization as a certified security provider.

Printegra is an innovative short run business printing company dedicated to satisfying customers with consistent performance, a friendly approach to business and dependable products delivered as promised. Printegra products include custom and software compatible checks and forms, print shop products, integrated products, as well as online customer service / ordering.

Printgraphics offers a full range of traditional forms and labels, enhanced by value-added services. Areas of expertise include 8-color promotional printing, including integrated label and magnet production. We are uniquely positioned to support you with market-favorable products.

Printxcel is a distributor's best source for a wide variety of print products and services. We operate 4 manufacturing facilities nationwide and offer over 50 years experience as a manufacturer to the trade. Products include: cut sheet and continuous traditional checks and forms, financial forms products, direct mail, integrated and affixed card and label form products, multipart mailers, VersaSeal Pressure Seal Mailers as well as online ordering and print procurement solutions.

Royal is a national supplier of custom forms and business supplies with distribution to all 50 states. Established in 1959, their primary goal has been to provide quality printing and experienced customer service. Royal produces and distributes a variety of continuous, snap-a-part, register and laser forms, demand style point-of-sale invoices and many varieties of promotional products.

Integrity, product innovation, and market leadership. **Specialized Printed Forms** is well known in the industry for custom printing the unusual, difficult and nearly impossible. Customers often remark, "When I need to develop a product, I call Specialized first."

Star Award Ribbon Co. produces a wide variety of ribbon products designed specifically for the awards industry. Whether it's for a sporting event, beauty contest, promotional event or awards ceremony, Star Award Ribbon Co. offers the most diverse selection of rosettes, ribbons, banners an

IMPORTANT INFORMATION

Artwork (Guidelines & Templates)

We have an all digital workflow and work with all MAC and MAC compatible files. Artwork must be created on our FREE design templates. Use accepted programs and follow Art Guidelines. Download templates at www.colorworxonline.com. When sending digital files via our FTP or email, all files MUST include your dealer information, purchase order number and job name. Incorrect files and files created without our item template may delay production and can incur prep charges.

<u>Copy Errors</u> Customer files are reviewed before output to ensure accuracy and that your expectations are met. **However, we are not liable for errors in customer submitted files.** Additionally, when a remake is warranted the order will be produced according to the original specifications, without alteration. (See Printing)

<u>Proofs</u> Proofs are available for an additional charge. Changes to proofs may incur additional charges. Normal production time is required after proof approval.

<u>Printing</u> All standard products are printed in four color process only. Prices are based on customer supplied, print ready files in acceptable programs on our templates. **Process graphics must be in CMYK and not RGB or PMS.** We are not responsible for color shifts that may occur when PMS colors in files or RGB files are converted to CMYK, Refer to the Pantone® 4-Color Process Guide and Pantone® Color Bridge for assistance with process color builds. Never rely on color monitors for accurate color representation. (See Color Matching.)

Color Matching ColorWorks is a "gang run" style print company. Your job will be run on a press sheet with other jobs and will be run to standard color densities. The overall dominant color on a sheet may cause individual job colors to shift slightly. Every effort is made to ensure a reasonable representation, but ColorWorks DOES NOT GUARANTEE AN EXACT COLOR MATCH. If you require a color match or your job needs to match other pieces, let us know prior to placing your order.

<u>Changes/Cancellations</u> Changes to orders in progress may or may not require additional cost and/or time. Cancellation after order is in progress will require payment for work performed or materials generated.

<u>Production Time</u> Most orders ship in 7 working days or less from receipt of acceptable submitted art files. **COLORWORX®** cannot be held responsible for delays due to incorrectly submitted files. Additional time and charges may be required to alter or fix incorrect files. Production times are exclusive of delivery time and are non-contractual. Production Days are Monday through Friday, excluding holidays.

Damaged Goods/Claims It is important to inspect all materials upon arrival. In the case of loss or damage in transit, the liability is that of the carrier and not COLORWORX®. Please mark shipper "received damaged" and contact your dealer immediately. A claim must be filed with the carrier within 10 days after receipt of merchandise. All other claims must be made within 30 days of delivery. Our liability is specifically limited to the value of the product we manufacture.
